

ENERGY INVESTMENT STRATEGY RESEARCH - SENIOR ANALYST

Location: Hai Ba Trung District, Hanoi

ABOUT US

Emerging Asia Insights & Consulting Services Company Limited (“EAIC”) is a private consulting firm established in 2018 based in Hanoi. We advise organizations from the initial planning stage to full execution management with a focus on sustainability and innovation. We leverage our network of advisors, consultants, and strategic alliance partners for domain and functional expertise. Our on the ground team provides immediate support to both our domestic and international partners.

JOB DESCRIPTION

We are looking for an Investment Strategy & Research Leader. The position is ideal for self-motivated individuals with 3+ years’ experience to oversee the company’s various research programs across the client dashboard and manage the team of analysts, associates and interns on tasks / assignments and breakout research coverage groups.

The role is to firstly support a power generation project approved in the power development plan and is under development. The project is backed by a consortium of world-class companies in the energy sector. In this capacity, the analysts will work together daily to support the senior management, both foreign and Vietnamese. The analyst will regularly engage with regulators, consultants, lawyers, contractors and financial institutions both foreign and Vietnamese. The role can expand to other projects subject to the capabilities of the candidate and demands of the firm.

The role is to secondly support a large waste-to-energy technology and developer in the development of the investment strategy of the company and its respective projects.

You will report to Manager of Commercial Department and the Board of Directors.

Responsibilities include but are not limited to:

Investment Strategy Research:

- Conduct macroeconomic and industry economic research to determine market potential, key trends and catalysts
- Liaise with commercial, project and legal teams on policy research to determine investment process in projects
- Conduct research industry research on industry stakeholders
- Conduct company research for strategic partnerships/investments
- Liaise with other research institutes and firms to co-author insights and research
- Prepare and conduct presentations for internal and external stakeholders

Management:

- Support recruitment and training for team of research analysts, associates and interns
- Oversee management and training of analysts, associates and interns to complete research deliverables
- Build and maintain financial models and valuation models

Support:

- Support commercial team on research analysis for proposals and project documents
- Support commercial, project and legal teams on transactions

JOB REQUIREMENTS

- Minimum three (03) years of work experience of research in management consulting, industry economics, investment banking or investment management
- Industry experience in specific fields such as energy, transport, environmental and telecommunications infrastructure as well as real estate preferred
- CFA / CFA candidates / MBA candidates preferred
- Degree qualification from a recognised programme in Business / Accounting / Finance / Law
- Outstanding quantitative and qualitative analytical skills; strong knowledge of finance and accounting
- Ability to communicate effectively and express complex ideas succinctly
- Ability to lead and manage team
- Strong proficiency in MS Office, Excel, Word
- Proficiency in Bloomberg or Capital IQ or other data mining software preferred
- Excellent written, verbal and listening communication skills
- Fluent and confident in English and Native in Vietnamese

BENEFITS

- Competitive compensation and benefits package.
- Professional and friendly working environment.
- Opportunity to take a leadership role and fast track your career.
- A dynamic and collaborative team environment
